## CERAMIC POTTERY PAINTING!!!!

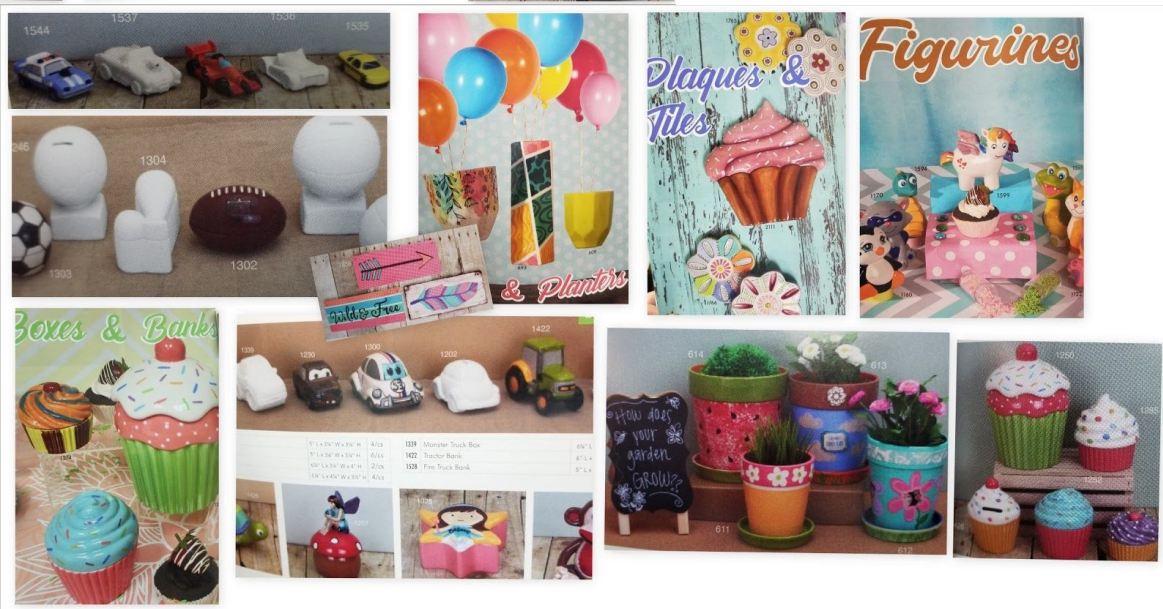

***Choose a piece from our wide range of options. You glaze/paint it. We fire it. You pick it up in 1 to 3 weeks.***  
***Great for all ages and every season.***

*Glazed pieces are food-safe. You may also choose the less expensive option of acrylic painting. This is not food-safe but is great for decorative pieces that are ready to take with you the same day.*

***Hand painted pottery makes an excellent gift for any occasion. Pottery painting makes an excellent party or group activity too. Painting a small piece is a great party favor to accompany a wedding or baby shower, bridal party outing, or team building event.***

***Brides can choose pieces for their kitchen or home and guests can paint the pieces as gifts in the bride's colors. Use handprints or fingerprints from the whole gang to create a meaningful and personalized gift.***

***We have lots of items in stock from which to choose but give us a few weeks notice and we can custom order almost anything you could imagine. Prices are based on size of the project and space required in the kiln. We have a variety of user friendly glazes, stencils, and tools as well as teacher guidance to help you create a project you love.***
